SKILLED CARE IN A SERENE SETTING

We take a personalized approach to care: providing the ideal combination of skilled nursing, rehabilitation, and emotional support to help you transition from hospital to home, safely and comfortably.

Whether you're recovering from surgery, regaining your speech and mobility following a stroke, or coping with a chronic condition, our experienced interdisciplinary teams address emotional and social needs along with physical challenges – all in a comfortable, welcoming environment that nurtures your spirit as you restore your health.

REHABILITATION IS A TEAM EFFORT

Our dedicated team works closely with you and your family to develop a customized rehabilitation program:

- Medical treatment with our physicians
- Mobility and physical therapy
- Building independence
- Occupational therapy and skills of independent living
- Speech therapy and language skills
- Personal care with a social worker

Our goal is to help you create a stronger, healthier future by equipping you with the strength and skills to manage your condition and care for yourself.

SKILLED NURSING SERVICES AND MEDICALLY COMPLEX CARE

Unlike many skilled nursing centers, our facility is equipped with advanced technologies and specialized resources to care for high-acuity patients, as well as those with multiple illnesses, injuries, or rehabilitative issues.
